

We are proud to partner with Climate Mobilization Project to declare a Climate Emergency

The goal of the Climate Emergency Campaign is to persuade governments to adopt an emergency response to climate change and the broader ecological crisis.

When Climate Mobilization Project was founded at the People's Climate March in 2014, there was no climate group publicly organizing around the need for WWII-scale emergency action on climate. The Climate Mobilization Project Climate Emergency Campaign has spread globally and is now being championed by leading climate groups including Elders Climate Action and hundreds of local governments that have declared Climate Emergency. The #ClimateEmergency movement has won over 1000 declarations so far.

Entering emergency mode is the critical first step to launching the comprehensive mobilization required to rescue and rebuild civilization.

Help start a campaign to declare a Climate Emergency in your area. Sign up to receive more information on the project and how to get involved.
